

## 74141

Emergency LED Driver Series

### Product Features

- Wide input voltage range AC100-277V, to meet the needs of the vast majority of the global grid.
- 4 different current option, to meet the needs of different LED load.
- 90 minutes emergency time, meet UL requirements to emergency lighting discharge time.
- Maintenance-free NI-CD batteries, no risk of fire and explosion.
- 5 years warranty.

### Protection

- Short-Circuit Protection
- Open-Circuit Protection
- Over-Load Protection

### Attention

- In order to prevent electric shock, do not connect the emergency power supply battery connection terminal and AC power before installing.
- Before disassembling or servicing, disconnect the AC power and unplug the emergency power battery connection terminal.
- Emergency power supply and AC driver must be on the same circuit branch.
- Apply to 0-50 °C dry environment, please do not use in outdoor or humid environment.
- Do not near flammable gases or heat sources.

## 74141

Emergency LED Driver Series

Model Number	74141			
Input Information				
Line Voltage (AC Operation)	100-277Vac			
Line Frequency	50/60Hz			
Line Current	≤0.12A			
Inrush Current	≤60A Per NEMA 410			
Charging time	24H			
battery	Ni-cd 14.4V 57.6WH			
Standby Power	≤6W			
Output Information				
Max Output Power	24.5W			
Output Voltage Range	18-24Vdc	24-36Vdc	36-42Vdc	42-48Vdc
Output Current Range	1050mA	690mA	590mA	520mA
Output Current Accuracy	±10%			
Response time	<5S			
Emergency time	≥90min			
Indicator status	Fast flash: the battery is not connected before power on; often bright: normal charge.			
Protection				
Open Circuit Protection	Open Circuit Voltage Max. 75V			
Short Circuit Protection	Hiccup mode, auto recovery.			
Environment				
Operating Temperature/Humidity	-0℃ ~ +50℃/10%RH~80%RH			
Storage Temperature/Humidity	-25℃~85℃/5%RH~90%RH			
Safety and Regulation				
Certification	FCC, UL			
Withstand Voltage	I/P-O/P:3.75KVac,5mA,60S I/P-G:1.5KVac,5mA,60S			
Insulation Resistance	I/P-O/P:500Vac,>100MΩ			
Surge Rating	Meet to IEC61000-4-5(L-N 3KV)			
EMC	Meet to EN61000-3-2,FCC Part15B			
Other				
Dimension and weight	WP-25U-48-EA: L*W*H 370*72*71mm, weight: 2.48Kg			
IP Grade	IP20			

#### Remarks:

- 1.All the parameters are typical value under the environment temperature 25℃ and full load.
2. LED Driver is just a part of luminaries. The luminaries' manufacturers have to re-confirm the EMC performance of the whole lamp, because it will be affected by the wiring of luminaries.
